Why did summer have to go so fast
When we knew it would be the last
Summer spent together in this town

You're moving with your family
How was it that we didn't see
That forever wouldn't stay around
But that's all over now

Let's stay out all night long
Till they find us in the morning
Tell them we've done nothing wrong
When they ask us where we've been
Making memories we won't regret
And we'll never forget

If you're momma asks where you'll stay
Tell her it's gonna be okay
You're staying with your best friend down the street
Same old spot we always meet
We're gonna promise to write every day
But you know life gets in the way
New town, new school
New friends for you

Let's stay out all night long
Till they find us in the morning
Tell them we've done nothing wrong
When they ask us where we've been
Making memories we won't regret
And we'll never forget

Let's stay out all night long
Till they find us in the morning
Tell them we've done nothing wrong
When they ask us where we've been
Making memories we won't regret
And I'll never forget you.
