(Ronald Dunbar/Edyth Wayne)

Darling, take me with you wherever you go
Don't leave me, don't leave me
(2x)

All our life through thick and thin
We've been so involved
Whatever problems we have, the two of us will solve
Now you want to go away and leave me by myself
Because you feel the need to try and find yourself

But darling, take me with you wherever you go
Let's go together, together
Darling, take me with you wherever you go
Don't leave me, don't leave me

You need a woman by your side that believes in you
It can only make you stronger to face what's ahead of
you
'Cause if something should go wrong
If plans don't succeed
I should be right there in your time of need

Darling, take me with you wherever you go
Don't leave me, don't leave me
Darling, take me with you wherever you go
Let's go together (don't leave me)

Don't make me live my life from day to day
Wondering how you are while you're miles away
Why can't you understand that you're a part of me
Without you, my whole world would surely seem to be

You say the life you lead would be so hard
And you will send for me when you'll make a start
But did we make it through the years this far together?
And I don't wanna live without you, never

Darling, I'm begging, take me with you wherever you
go
Don't leave me, don't leave me

Darling, take me with you wherever you go
Let's go together (don't leave me)
I'm begging, darling, take me with you wherever you
go
Don't leave me...
