It will come on out yeah

Whoa-oh-ohhh

You (you) can't hide (hide) the truth (truth) behind
lovers, no

When you're making love, the truth will come on out
(it will come on out, yeah)

You might slip (slip), slide (slide), cheat (cheat) till
about these lies

When you're lovin' someone, the truth will come on out
(it will come on out, yeah)

Don't ever get the notion

You can fool by emotions

No matter what it goes down (no matter what)

I can tell it when you're messing around

You (you) can't hide (hide) the truth (truth) behind
lovers, no

When you're making love, the truth will come on out

You might slip (slip), slide (slide),

Cheat on you, baby, 'till about these lies

When you're lovin' someone, the truth will come on out
(It will come on out, yeah)

(Come in, baby)

Come home late as can be

You start an argument with me

Jiving to the sky (you can't move me)

But you turn on the lock in your eyes

You (you) can't hide (hide) the truth (truth) behind
lovers, no

When you're loving someone, the truth will come on out
(it will come on out, yeah)

You might swear (swear), cry (cry), just let out alibis

When you're lovin' someone, the truth will come on out
(it will come on out, yeah)

(Ooh baby) Come home with the story

(Ooh baby) Early in the morning

(Ooh baby) There's no way to disguise it
(No baby, no baby) No, no, no, no, no

You (you) can't hide (hide) the truth (truth behind
lovers, no)
When you're making love, the truth will come on out
(It will come on out, yeah)
Oh you (you) can't hide (hide) Oh no (truth)
You just can't hide it (behind lovers, no)
Ain't no way you can move me, baby
Ohhh, oh, oh, ohhhhhhhhhhhhh
You (you) can't hide (hide) the truth
