(R. Miner/W. Weatherspoon)

Just keep on doing what you're doing  
'Cause I love, love what you're doing

Everything you did was right  
You build up my appetite  
You showed me strength, much confidence  
That welcomed with the light  
Though at first, I wasn't sure  
You were like a doctor's cure  
You made me see (You made me see)  
You were so good to me (You were so good to me)

Oh, you made me come to you  
Oh, you made me come  
And you made me seeing you  
You were the only one  
Ohhhhh, ohhh, ohhhhh (Good God)  
Uh!

Pretty made me hang my head  
And I hear whole life is dead  
I'm founding out what love's about  
Sleeping in one unmade bed  
When you started clearing out  
All my fears and all my doubts  
You turn my world around (You turn my world around)  
So what was going down (So waht was going down)

Oh you made me come to you  
Oh, you made me come  
And you made me seeing you  
You were the only one  
Ohhhhh, ohhh, ohhhhh (Good God)

Just keep on doing what you're doing  
'Cause I love, love what you're doing  
Just keep on doing what you're doing  
'Cause I love, love what you're doing

It was like a stormy sea  
You are the ship that sailed to me  
You reeled me in and read me in  
The love soon as can be  
You showed me what it takes  
To get over my mistakes  
And you made me do (You made me do)  
Oh, would be good to you (Would be good to you)

Oh, you made me come to you  
Oh, you made me come  
And you made me seeing you  
You were the only one  
You made me come to you  
Oh, oh, you made me come to you  
You made me come to you  
Oh, oh, you made me come to you  
You made me come to you  
Oh, oh, you made me come to you  
[fade]
