"Delighted To See You"

It's been a long time now since we first met
No I didn't forget the look on your face
And there you turn up out of the blue
I can't believe that it's really you

Well, I'm delighted to see you, my little child
Delighted to feel your lips on mine
Delighted to spend the night with you
My little child, my little one

I remember the time of so long ago
When I didn't know my way around
But those days are over, and now I can see
You've learned a lot, just like me

Well, I'm delighted to see you, my little child
Delighted to feel your lips on mine
Delighted to spend the night with you
My little child, my little one

Well, I'm delighted to see you
