Oh... Billy...
Hey Billy they were just here but you missed 'em
They were headed to the east side for some fast
company
Something in the mood smelled like dirty business
I think you're gonna find something other than fast
company
I never stood in your way, or changed your mind
You'll be running scared in the night (with fast
company)
Fightin' for your life (fast company)
I know something tells me you won't be coming back
So you made up your mind
I know that you're gonna go
Dressed to kill looking sharp but you're looking to even
the score
But there's something you don't know about your own
boys
There's mutiny in the air and I tell ya, you're gonna be
alone
Cause in the end when it's over, they're gonna find you
Now you're running scared in the night (with fast
company)
Fightin' for your life (fast company)
I know something tells me you won't be coming back
Now you're running scared in the night (with fast
company)
Fightin' for your life (fast company)
I know something tells me you won't be coming back
(GUITAR SOLO)
Now you're running scared in the night (with fast
company)
Fightin' for your life (fast company)
I know something tells me you won't be coming back
You'll be running scared in the night (with fast
company)
Fightin' for your life (fast company)
I know something tells me you won't be coming back
Fighting for your life baby
Oh I'm running scared
