

Honeyhoney

"Thursday Night"

Visit "[Thursday Night](#)" on MotoLyrics.com

I'm sitting here with you tonight
You make an awful pretty sight
and since its just us two tonight
I think that we should screw tonight

I'm feeling kind of stuck tonight
An old juke box with the neon lights
I'm bent down on my luck tonight
I think that we should fuck tonight

It's not that I'm just using you
you just look like you needed to
and when that sun comes rolling through
We'll have done what we came to do

It's just you and me tonight
you got no bark and I got no bite
unless of course that's what you like
you might not get much sleep tonight

It's not that I'm just using you
you just look like you needed to
and when that sun comes rolling through
We'll have done what we came to do

Ain't no need to think tonight
to whisper babe or wink tonight
seems to me you'll do alright
just keep bringing those drinks tonight.
