Do do do do do do...

We got to live together
We got to live together
Everybody, sing it
We got to live together
Yeah, yeah
We got to live together

Now let me tell you about it

Folks running around
Talking a lot of jive
Fussing and a fighting
Might lose their lives

You better raise your head up high
Or else you might be dead
You run around, jiving
But don't you be afraid, 'cause

We got to live together
I say, we got to live together
Whoa, oh

Running around late at night
Don't you worry
You might have to fuss and fight
It's all right, 'cause
Yes, we know everything

There ain't no kind of time or place
Where you can walk away, it's all right
Whoa, yeah, it's all right

Ho, now it's all right
Yeah, yeah, I say you
Don't have to fight, 'cause

We got to live together
Y'all know what I mean
We got to live together

Everybody, sing
We got to live together, yeah
We got to live together

Now let me tell you about
Those folks just running round
Talking all that jive
Fussing and a fighting
They might lose their lives

You better raise your heads up high
Or else you might be dead
You run around, jiving
But don't you be afraid, 'cause

We got to live together
Say, we got to live together
Everybody, sing it

Running around
Talking a lot of jive
Don't you worry
You don't have to fuss and fight
Oh, yeah, I say it's all right, oh

There ain't no kind
Of time or place now
Where you can walk away
All night, it's all right

Hey, baby, don't you
Don't you know that, uh
Oh, darling, it's all right
