I've been watching you
Thinking that we should be together
I sit and dream about you
Wishing you would come to me and leave me never

Last night involved (last night involved)
In having mutual attraction
We've got everything (we've got everything)
To live for boy
I'll find a way (I'll find a way)
Maybe today
Hear what I say

It seems like I can't hide
(It seems I can't hide)
The way I feel inside
(The way I feel inside)
And I just wanna say
(And I just wanna say)
Hello, hello, hello

The thing that we could do
If we were all alone together
I like to make you scream
You and me in ecstasy
Boy, forever

It's such a shame
(Oh, such a shame)
To think that you will never know
About this love that I've been saving, boy
I'll find a way
(I will find a way)
Maybe today
Hear what I say

It seems like I can't hide
(It seems I can't hide)
The way I feel inside
(The way I feel inside)
And I just wanna say
(And I just wanna say)

Hello, hello, hello

It seems like I can't hide
(It seems I can't hide)

The way I feel inside
(The way I feel)
And I just wanna say
(And I just wanna say)
Hello, hello, hello

There's nothing wrong
(Oh, there's nothing wrong)
In having mutual attraction
We've got everything (we've got everything)
To live for boy
I'll find a way
(I will find a way)
Maybe today
Hear what I say

It seems like I can't hide
(It seems I can't hide)
The way I feel inside
(The way I feel)
And I just wanna say
(And I just wanna say)
Hello, hello, hello
(Hello)

It seems like I can't hide
(It seems I can't hide)
The way I feel inside
(The way I feel)
And I just wanna say
(And I just wanna say)
Hello, hello, hello

Don't wanna hide it
Cause I can't fight it
Don't wanna hide it
No, no, no, no, no.
Don't wanna hide it
Cause I can't fight it
Don't wanna hide it
Cause I can't fight it

It seems like I can't hide
