An evening of introductions  
leading me around by the hand like this  
was second nature to you.  
But I'm not complaining I admit  
I enjoy the company and you haven't taken things too  
far.  
But that's no promise yet.

So show me your next move like it's your last move  
like you have something to prove to me  
So maybe I worry a bit but you're a nervous wreck  
and I can't get a single answer out of you  
Keep your head held high and chin up darling.  
I'll watch your face light up from your eyes  
with a style and grace only you could provide.  
Let me be another reason for you to smile.

You scoff at every compliment but I won't let it stop me  
now.  
I love the red in your cheeks and the way you hide  
between my heart and my silver tongue  
A soothsayer she says am I  
Well I suppose I cannot tell a lie  
And I won't, I would never lie to you

This was more than just a bed to sleep in, so kiss and  
tell  
I'll make a believer out of you, but I'll make a liar out of  
me.  
We're no worse off than we are right now  
Always the mother, what would we do without you?
