### "All Night Long"

Visit "[All Night Long](#)" on MotoLyrics.com

We are curious, you're pretenders  
So we drive through the night, just you and I  
There's no telling what we'll get into

Barefeet out the window, till the gaslight's yellow  
Try make it to the coast west so close  
Pull off the side of the road  
Take off each other's clothes  
Under the moonlight turn up the radio

I don't care if you think it's wrong  
I just wanna dance here all night long  
Do do do, do da do do do  
Get up on the hood of your car  
I just wanna dance here all night long  
Do do do, do da do do do

We are dangerous with a love  
We burn bright through the night in your eyes  
I tell myself that I don't wanna leave

Bare feet out the window, forget about tomorrow  
Doesn't matter if they talk just let go  
We're finally on our own, from people throwing stones  
And every move we make can't take it anymore

I don't care if you think it's wrong  
I just wanna dance here all night long  
Do do do, do da do do do  
Get up on the hood of your car  
I just wanna dance here all night long  
Do do do, do da do do do

I don't care if you think it's wrong  
I just wanna dance here all night long  
Do do do, do da do do do  
Get up on the hood of your car  
I just wanna dance here all night long  
Do do do, do da do do do
