There was a thread of love  
I didn't think it'd come  
What was I thinking of  
I don't know,  
I was good on my own  
Then I threw caution to the wind  
When I decide to let you in  
I fell so hard, so fast  
I'm seeing stars,  
they lead us through the dark

Now it's gone and clouds are forming  
everybody tried to warn me  
but I didn't listen to what they said

(Chorus)

Now that the rain is falling  
I should've seen it coming  
I can't believe you're walking  
walking away, away  
You left me in this hurricane (5x)

I wanted so badly to believe  
that you would brave the storm with me  
fair weathered friends got enough of them  
thought you'd be here for me

Now my eyes have started pouring  
In my heart it's dark and stormy  
and it won't stop  
cause you wrecked all of me

(Chorus)

Now that the rain is falling  
I should've seen it coming  
I can't believe you're walking  
walking away, away  
You left me in this hurricane (5x)

Now it's gone and clouds are forming  
everybody tried to warn me  
but I didn't listen to what they said

(Chorus)

Now that the rain is falling

I shouldâ€™ve seen it coming

I canâ€™t believe youâ€™re walking

walking away, away

You left me in this hurricane (5x)
