Fall, fall asleep.
close your eyes, think of me.
I'll stay up, think of you
And the truth, i never knew.

I've been changing, losing faith in everything i see.
Every part of me.
You should be the one.
Light this fire, take me higher
Pretty little liar
Pretty little liar
Don't you lie to me now.

There's a time, and a place, to be still, to be chased.
Love is blind. But i see, that the truth, will set us free.

I've been changing, losing faith in everything i see.
Every part of me, you should be the one.
Light this fire, take me higher
Pretty little liar
Pretty little liar
Don't you lie to me now.
