A funny thing happened on the way to Costa Rica
Saw a girl that I'd like to make my senorita
She got her feet up, she drinking sangria
Damn that girl is fine
I tried to catch her eye but she was in a conversation
Moved a little closer just to get her attention
And did I mention that she's my new addiction?
She always gets me high

Cupid must of missed me
I looked up she was gone
Now I sit here thinking
How did I go wrong?

Looking for this girl like a game of Marco Polo
Her voice is in my head she's got me crazy like Ceelo
I can't believe it she slipped right through my fingers
Please bring her back, bring her back serendipity
Now I'm searching Craig's list for a misconnection
Call me Sherlock Holmes I'm on the case like a
detective
I'm on a mission to find what I've been missing
Please bring her back, bring her back serendipity
Oh whoa oh oh, please bring her back, bring her back
serendipity
Oh whoa oh oh, please bring her back, bring her back,
yeah

I've been around the world from Tanzania to the
Outback
To find a girl like this is like a needle in a haystack
Like Kim to Kanye, the J to her Beyonce
I wanna be her guy
I know a happy ending's outta my control
But in the movie of my life girl you're a starring role
And I'm not giving up, I may not find you but
I know I gotta try

Cupid couldn't help me
I'll do this on my own
I got my eyes wide open

Cause if she comes along

Looking for this girl like a game of Marco Polo
Her voice is in my head she's got me crazy like Ceelo
I can't believe it she slipped right through my fingers
Please bring her back, bring her back serendipity
Now I'm searching Craig's list for a misconnection
Call me Sherlock Holmes I'm on the case like a
detective
I'm on a mission to find what I've been missing
Please bring her back, bring her back serendipity
Oh whoa oh oh, please bring her back, bring her back
serendipity
Oh whoa oh oh, please bring her back, bring her back
serendipity
Oh whoa oh oh, please bring her back, bring her back

I hope you're looking for me too
Cause I can't be Romeo without you
Yeah, yeah

Looking for this girl like a game of Marco Polo
Her voice is in my head she's got me crazy like Ceelo
I can't believe it she slipped right through my fingers
Please bring her back, bring her back serendipity
Now I'm searching Craig's list for a misconnection
Call me Sherlock Holmes I'm on the case like a
detective
I'm on a mission to find what I've been missing
Please bring her back, bring her back serendipity
Oh whoa oh oh, please bring her back, bring her back
serendipity
Oh whoa oh oh, please bring her back, bring her back
serendipity
Oh whoa oh oh, please bring her back, bring her back
serendipity
Oh whoa oh oh, please bring her back, bring her back
serendipity
