(dean dillion/donny kees/sanger d. shafer)

I only needed coffee  
Aisle four is where he caught me off guard  
Seemed like a lifetime  
Between his goodbye  
And by the way how have you been?  
He talked about the weather  
I thought of nights I held him so close  
There I go  
Thinkin with my heart again

His smile brought back the best times  
Sweet memories of nights together  
Stirrin up those old feelins  
That got me thinkin bout forever

He said I'd best be goin  
There's someone waitin for me outside  
And I'm dyin  
There he goes  
And here I go  
Thinkin with my heart again

His smile brought back the best times  
Sweet memories of nights together  
Stirrin up those old feelins  
That got me thinkin bout forever with him

I only needed coffee  
Aisle four is where he caught me  
Thinkin with my heart again
