Visit "[Two Rebels](#)" on MotoLyrics.com

I know you're scared
Everybody gets a little bit of stagefright
But when prepared
And the mood is set
And it's come together just right
What should we do now that we're caught in the middle
of the spotlight?
I can feel your butterflies
If we kiss will they fly away?
oh, ohhh

[chorus]
We had our whole life scripted
But we tossed it to the side
Those words can't tell us nothing
Come on baby let's improvise
Whoa ,oh
Do you trust me enough if we become two rebels?
Whoa, oh
Just like outlaws on the run
All we have is each other
Whoa, oh
We can eat, sleep, breathe our love
If you become a rebel with me

The night is young
And when everybody's fast asleep we're still
rehearsing
The sun comes up
I can see you in the dark
But you're looking even better in the morning
What should we do now that we're caught in the middle
of the sunlight?
You might even wanna hide
But together we can run away

ohh, ohhh

[chorus]
We had our whole life scripted
But we tossed it to the side
Those words can't tell us nothing

Come on baby let's improvise
Whoa, oh
Do you trust me enough if we become two rebels?
Whoa, oh
Just like outlaws on the run
All we have is each other
Whoa, oh
We can eat, sleep, breathe our love
If you become a rebel with me

Oh oh baby we're two rebels
Oh oh in this black and white, black and white world

Oh oh baby we're two rebels,
oh oh baby in this balck and white, black in world

Oh oh baby we're two rebels
Oh oh in this black and white, black and white world

Oh oh baby we're two rebels,
oh oh baby in this balck and white, black in world
Do you trust me enough if we become two rebels?

Whoa
Just like outlaws on the run
All we have is each other
Whoa
We're gonna eat, sleep, breathe our love
If you become a rebel with me
