It's about that time, Wooooooooooooo!  
Yeah, uh huh uh huh, you know, yeah  
Word up, c'mon

Lights, cameras, action, it's on  
Straight out the gate with another hot song  
Keeping it real though, gonna last long  
Break out the steel toe, coming mad strong  
Bounce if you wanna, lounge or play the corner  
I'm New York, talking that gangsta talk  
24 bases, Q-U to Oasis  
So spacious, see eyes and no faces  
In there, yeah, just putting in work  
For the dough so you know that I couldn't get jerked  
Street mental, throw on the hoodie then lurk  
In a rental, til the end of the Earth  
I'm a be that fella, with the motzarella  
Always cooking up the new hot seller  
Putting that money in the bank like the teller  
And this be the number one rank, let me tell ya

It's about that time (Repeat 8x)

On the fast track chilling, creeping like a villian  
In 2000, new car, new housing  
Buy the whole store up style, I'm through browsing  
Kid even more buckwild, I drew crowds in  
Every state, and still draw 'em at every forum  
Don't lose no points, I just score 'em  
And count blessings, at the top of Mount Freshness  
Live, getting brite, this is not no jive  
Today or tomorrow, it doesn't matter  
Gotta stay just moving on up the ladder  
And stay grounded, remember the Bronx cause they  
found it  
Cutting them old joints up by James Brown, kid  
Golden, for I forget holding  
Gotta shout out the block, 45th cold in  
In Jamacia, Queens, I'm true to the fort  
Every day all day, not new to the sport  
And the lease be, kids in Queen is who I feast with

When I ain't in the lab, flipping beats with  
Drums that pound, I be breaking it down  
With homeboy van on the way uptown  
How that sound?

It's about that time (Repeat 8x)

There's a whole lotta rappers in the world today  
Some good, there's some that got nothing to say  
Some fake, some false, some imitation  
But I'm the uncut raw for your generation  
Work magic with terms like never before  
Hang dumb rappers, leave they head on the floor  
Drop hits for the hip-hop crowd that rock kicks and hats  
Crisp jeans and the whips to match  
Hardcore since the ??? blast, cock dip and stash  
Live now and forget the past  
In the street try to hustle while eating a meal  
Watching out so you don't get beat in the grill  
Cause the crossroads is deep, sleep and you will  
Be the next one to up, I'm feeding the real  
To your eardrums, son, start heating the drill  
One time, this is what y'all feel and I'm a still be

Yo P man I hear you doing your thang  
Yeah, you know what I'm saying, just trying to  
keep busy man  
Yeah, I hear that, it's all good  
Word up, definitely man  
It's about that time  
Word up man, get this money man, get paid for real  
Do what I gotta do man, word up  
You know what I'm saying? It's about that time, word up

It's about that time (Tawn Hill)  
It's about that time (Akinyele)  
It's about that time (Big Ving)  
It's about that time (Abdul)  
It's about that time (Exotic)  
It's about that time (Big Stretch)  
It's about that time (Word up)  
It's about that time (Yeah)
