### VERSE 1

I run away through the dark and empty space  
Where the wind will erase your memory  
Here in the black  
There is no turning back  
It's the only place where I can get away  
END OF VERSE 1

### CHORUS

This is where I know I'm safe  
The road is my escape  
A hiding place from you under the sky  
There's nowhere else I'd rather be  
The moonlight blankets me  
The stars will be my company tonight  
END OF CHORUS

### VERSE 2

The farther I run  
The more that I become  
Weightless and numb  
To the herding (?)  
Worries and fear  
Hold no gravity here  
It's the only place it all makes sense to me  
END OF VERSE 2

### REPEAT CHORUS

### BRIDGE

No destination  
I have found the call (?) inside the storm  
No destination  
I have found the call (?) inside the storm  
END OF BRIDGE

### REPEAT CHORUS

No destination  
I have found the call (?) inside the storm
