You want what you deserve
But it's right in front of you
You want something better
Than any other
You don't even bother
To figure what it is
That you think you deserve
You'll find it all one day
But not this way
Open your eyes
Your heart will follow
Open your eyes
See what you've been missing
Open your eyes
And find the answer
I can't take anymore
Have you ever asked yourself
What am I looking for
You're indecisive
You are just another
Caught up in all of this
Plastic glamorous world
You'll never see
Who you could be
Open your eyes
Your heart will follow
Open your eyes
See what you've been missing
Open your eyes
And find the answer
Your world is waiting, anticipating
But your time is fading
If you never open your eyes
If only you could see
That there's something you can do
To make this better
Open your eyes
Your heart will follow
Open your eyes
See what you've been missing
Open your eyes
And find the answer

You're world is waiting, anticipating
But your time is fading
If you never open your eyes
