## "Waiting"

I dont care what you think or say,  
It does'nt matter what yo think it takes  
I'am going to do what I came here to do so you better  
move.

Cause I'am prepared to lose it all  
I'am not afraid of how far I might fall  
as long as I've done everthing i could.

Cause I've waited so long for my time to come  
and I've waited so long to open the door,

and now it's finally opened up  
and all this time I thought it was dark shut  
cant wait around to see when it will close  
I don't want to know  
I know that I've gotta make a move I did'nt to come this  
far to not go through  
I know exactly what I have to do.

Cause I've waited so long for my time to come  
and i've waited so long to open the door  
and I know in the end I may never be here again

so i'am not going to wait anymore.  
No!!

One shot is all I've got,  
one shot is all I've got  
so I'll hope that my aim is straight and true.

Cause I've waited so long for my time to come  
and I've waited so long to open the door,  
and I know in the end I may never be here again,  
so I'am not going to wait anymore,  
no I'am not going wait anymore

One shot is all I've got, one shot is all I've got.
