What you said I believed  
Words led me astray  
Lies of friendship  
You let me down  
A hypocrites truth always the same  
LIES (4x)  
You motherfucker  
You're next on your list to deceive  
Your life is worthless  
Hallowed cries I fail to believe  
Force fed me your fucking lies  
Words I'll never believe  
Force fed me your fucking lies  
Words I'll never believe  
Force fed me your fucking lies  
Words I'll never believe  
Force fed me your fucking lies  
Words I won't believe
