I was counting on you being there  
Hoping you would shield me from the glare  
Shadow me, I have lived in shadows all my life

I've been waiting an eternity  
For tonight to spread it's arms and comfort me  
Shadow me, I have lived in shadows all my life

Things we did together yesterday  
Feels more like twenty years ago  
Oh, baby, I never lied

I told you my hands were tied  
All the time  
You said, "That'll be fine"

Like the mariners from ages past  
I steer my way through trackless seas  
By the light of stars

Won't you be my shadow?
