Everyday my dreams slip away
I won't go out without a fight
Everyday my life is taken from me
I won't go out without a fight

Treat me as the bastard
Life is cold, I'm so lost
These days drag on
Minutes to years, years that I've lost

Bastard, bastard
Bastard, the life you gave is the life that you took
Bastard, the life you gave is the life no one deserves

Bastard, bastard

Hey, Maja
Fuck you

Fuck you
Fuck you
Fuck you
