"Pray For Death"

Visit "[Pray For Death](#)" on MotoLyrics.com

From day one it's been a test for the best
A road straight down
Prayers at my bed
Time and time again waiting to see our fall

You can't kill what's dead

Undead inside myself
Learned my lessons well
No God can tame this beast
Your heaven's inside my hell

No God died for me
Undead inside myself
His love, I've thrown away
Now God can drink from me

It's time to pay for your sins
Drink from me
Pray for your sins
Pray for your sins

It's time to pay the price
For what you've put us through
Children slain everyday, true sickness born in you
No God would drink from me
