See the stars that shine and give us light  
One less star is in the sky tonight  
Words alone won't keep our tears away  
But I know that star will shine again someday

And Heaven laughs when we say goodbye  
It ain't so far to the other side  
Someday soon we will meet again  
Say it over and over and over til' then

Dream tonight about a last embrace  
Close my eyes and I will see your face  
Dreams alone won't keep our tears away  
But in my heart I know we'll meet again someday

And Heaven laughs when we say goodbye  
It ain't so far to the other side  
Someday soon we will meet again  
Say it over and over and over til' then

And so we laugh when we say goodbye  
It ain't so far to the other side  
And Heaven knows we will meet again  
Say it over and over and over again

From everlast to everlasting  
From sea to shinin' sea  
How much did we take from each other?  
Here's one from the heart and one more for free

And Heaven laughs when we say goodbye  
It ain't so far to the other side  
Someday soon we will meet again  
Say it over and over and over til' then

And so we laugh when we say goodbye  
It ain't so far to the other side  
And Heaven knows we will meet again  
Say it over and over and over again

Say it over and over and over again  
Say it over and over and over again
