We count the days  
We trace the steps  
But still we race into tomorrow  
In everyone we've ever met  
We find the laughter and the sorrow

And who know where the time goes  
But we know how it flies  
The pieces fit together just like Lucy in the Sky  
The songs that we'll remember  
The songs that never die  
Extraordinary moments in ordinary lives

I look at you  
You look at me  
There's love enough to be uncovered  
It's hard to see, but right before our eyes  
We find the heaven in each other

And who know where the time goes  
But we know how it flies  
The pieces fit together just like Catcher in the Rye  
Words that we'll remember  
Words that make you cry  
Extraordinary moments in ordinary lives

Yeah, who know where the time goes  
But we know how it flies  
The pieces fit together just like hello and goodbye  
All the things that matter that money just can't buy  
Extraordinary moments in ordinary lives

Blow out the candles  
Slice up the cake  
Life's just a camera for these memories we make

And who know where the time goes  
But we know how it flies  
Extraordinary moments  
Extraordinary moments  
Extraordinary moments in ordinary lives
