You got your big girl  
Now you've got your young one too  
Wondering if some day I could have them  
The way I once had you

I remember your crazy remarks  
We'd get drunk and go out after dark  
Searching for someone we could take home

You don't wanna be alone  
You don't want to see the sun go down  
You don't wanna open the door and see her go

One step and tomorrow comes  
Two steps and she's off with someone  
Three steps and it's all you know  
You'll be gone, she'll be gone

So what are you gonna do about me?  
I'll be there when you have no one else  
It's a part of the [Incomprehensible]  
I'll be there, be your friend

Hold on strong, don't let go  
There will never be no one to take your place  
So don't you want to reach out and take my hand?

You don't wanna be alone  
You don't want to see the sun go down  
You don't wanna open the door and see her go

One step and tomorrow comes  
Two steps and she's off with someone  
Three steps and it's all you know  
You'll be gone, she'll be gone

You don't wanna be alone  
You don't want to see the sun go down  
You don't wanna open the door and see her go  
And see her go

One step and tomorrow comes

Two steps and she's off with someone  
Three steps and it's all you know  
You'll be gone, she'll be gone

One step and tomorrow comes  
Two steps and she's off with someone  
Three steps and it's all you know  
You'll be gone, she'll be gone
