It's a mystery to me I don't understand  
No one lives next door  
No one can Now the street's a mess  
I can't go there  
My skin's the wrong color  
So is my hair  
I see a broken man  
I'll help him if I can  
But I just don't understand  
I don't understand (X 2)  
I don't understand at all  
It's different to me  
And it's going around  
From L.A. to N.Y.C.  
And any other small town  
Look who lived there before  
Where are they now?  
They rode the rails and the roads  
Got out of town  
I see a polluted land  
I'll clean it if I can  
But I just don't understand  
I don't understand (X 2)  
I don't understand at all  
There's a car with a "?"  
And a car you can "call?"  
There's a lady over there  
with no car at all  
There's a kid riding someone else's bike  
And the people at the old folks' home  
Who like to talk and walk away  
We adopt this place and its people  
As our second home  
We live in peace with its people  
But we're living alone  
They take from us our possessions  
And that makes us upset  
They take our youth and creations  
That we can't forgive or forget  
It's time to take a stand  
I'll do it if I can  
But I just don't understand  
I don't understand (X 2)  
I don't understand at all  
And I don't know why I called  
I don't understand (X 2)  
I don't understand at all  
And I don't know why I called  
I don't understand (X 2)  
I don't understand at all  
And I don't know why I called
