"Let My People Go"

Visit "[Let My People Go](#)" on MotoLyrics.com

When I walk down the street everybody that I meet
seems to be calling my name but what can you do
when they just stare at you tell me aren't we the same
(chorus) let my people go let my people go Hey aren't
you like me tell me why can't they see a man's a man in
this land yeah I lived my life I never think twice always
doin' what I can (chorus) I pledge allegiance to the flag
that's what they taught me in school but you walk down
the street saying where's their allegiance to me, then
they treat you like a fool. yeah things must change they
can't remain the same at least that's what people say
yeah things must change well you can change your
name it won't help you anyway (chorus)
