Emotional amplifier.  
50 watts of pure desire.  
Electrified intense luck.  
Exploded fuse sets the heart on fire,  
As if we cut the wrong black wire.  
Intensified adrenaline bluff.

Oh, no, it's not a catastrophe.  
Although it's not how it used to be.  
We can go on,  
Ignore the need to fall.

Sustained need to doubt the soul,  
Manipulated final score.  
Is shame part of the essential four?  
Earthly sins dredged in oil.  
What makes her blind the color of gold?  
Too many stories left untold.

Oh, no, it's not a catastrophe.  
Although it's not how it used to be.  
We can go on,  
Ignore the need to fall.
