Billie tries too hard  
But too can be beautiful  
When much gets too much  
Then too much means the end

Her love goes too strong  
But too can be beautiful  
When strong gets too weak  
Then too weak means the end

Still too much love, love, love  
To give up much (x2)

Her knife gets too hard  
But too can be beautiful  
When hot gets too hot  
Then too hot means the end

Her tears taste too salt  
But too can be beautiful  
When salt gets too salt  
Then to salt means the end

Still too much love, love, love  
To give up much (x3)
