Move on
You better move on
You're walking in circles

Move on
You better move on
You're walking in tiny circles

But now it is too late
There's way too much pressure
We both lost that little faith

So move on
You better move on
You're walking down in circles

Move on
You better move on
You're walking in tiny circles

But now it is too late
There's way too much pressure
We both lost that little faith
So move on

Chorus:

Nothing feels the same as it did
Enter this old game
You've got to learn to love yourself
And move on
