Water falling down a hundred meters
Coloured by the sun
In rainbow colors
Paul is driving me around
Through fields of light
Blinded by the sun
Fight the clouds
Be an inhaler
Have no doubts

Let them take you on a voyage to another
Let them take you on a voyage to another
Let them take you on a voyage to another...

Water falling down a hundred meters
Coloured by the sun
In rainbow colors
Paul is driving me around
Through fields of light
Blinded by the sun
Fight the clouds
Be an inhaler
Have no doubts

Let them take you on a voyage to another
Let them take you on a voyage to another
Let them take you on a voyage to another...

As I was saying, stereo is full of surprises
A new stereophonic sound spectacular
A new stereophonic sound spectacular

Were able to tell, in an instant, where a particular
sound is coming from
A new stereophonic sound spectacular x5
As I was saying, stereo is full of surprises
