Why I wonder why you sigh?
There's no reason
There's no reason for you to cry

Don't, don't believe your own lies
There's no reason
There's no reason for you to sigh

Music, music is opium for free
Try a little, try to consume me
Music is Prozac for free
Don't get stuck in greed

Why, why don't you dare to speak?
Silence, silence will tighten our [Incomprehensible]
Happy, happiness is not for lease
Silence, silence will tighten our [Incomprehensible]

Music, music is opium for free
Try a little, try to consume me
Music is Prozac for free
Don't get stuck in greed

Music, silence, happy
There's no reason
Music, silence, happy
There's no reason, don't
