Hooverphonic - You Are My Autoharp
=====

You are my autoharp
I push every button on your body
I push the a minor, the e flat, the f major
And especially the c sharp 7
You are my autoharp
I play every string in your mind
And even when i play them very loud
They keep in tune
But how will they sound soon
You are my autoharp
I bought you in a pawnshop in Virginia
You were cheap but in good condition
Longing for someone to take you on an exotic trip
You are my autoharp
I carried you all over the world
In my hard case called the heart
Youre the reason for my blood to keep running
Through my veins every album again
