I see the light shine on the city,  
Its morning now,  
There couldnt be more beauty in any other town,  
Your dancing lights and endless nights,  
Everybody knows you never sleep,  
Youre still beautiful to me,  
They say that if you make it here,  
Youll make it anywhere,  
Its gotta be the truth  
'cos im not going anhwere,  
So leave me in New York  
New York  
mmmmm,  
mmmmm,  
Lady liberty your my shining star,  
I'll meet you in the garden after dark,  
And tell me all the stories,  
Of how we got outr freedom,  
And tell me how America was born,  
They say that if you make it here,  
Youll make it anywhere,  
Its gotta be the truth  
'cos im not going anywhere
