Every morning there's a dream
That's pounding in my head
A little louder than the critical words they said
I don't want to look back
On what I could have been

Every road I take will lead me where I belong
A silver lining is the cloud
That doesn't block my sun

I can't deny the reason why I'm alive...

And I almost feel I can fly now
I want to go up against the fear
We're all born with
Of not knowing how

And I know this moment is mine now
For the first time in my life
I'm not looking down
I will fly

There was a time I doubted what I believed
Someone other than myself
Had gotten hold of me

But now know I can do
What I have to

To believe to be strong
To be there where I belong
Somewhere in the sky
Now I know why I'm alive

And I almost feel I can fly now
I want to go up against the fear
We're all born with
Of not knowing how

And I know this moment is mine now
For the first time in my life

I'm not looking down
I will fly
I will fly

Can't wake me up
I'm not dreaming
I'm gonna make the crowd scream
And you can't hold me down tonight

And I almost feel I can fly
Without knowing how

I can fly I can fly I can fly

Every morning there's a dream
That's pounding in my head
A little louder than the critical words they said
I don't want to look back
On what I could have been
