Don't cry baby
It's no big deal
It's not like it really matters
How I feel
I knew that you would break my heart
I knew it right from the start
But I wouldn't listen to a thing

How could I have been the fool
To put my trust in you
And how did I get here
Drowning in your tears
When you were nowhere near
I can't get mad at you
Over what you put me through
It's what stupid people do (people do)

Don't say maybe
'Cause that won't do
Here today gone tomorrow
It's nothing new
I heard you went around the block
Making all your frequent stops
But I wouldn't listen to a thing

How could I have been the fool
To put my trust in you
And how did I get here
Drowning in your tears
When you were nowhere near
I can't get mad at you
Over what you put me through
It's what stupid people do

It's what stupid do
Oh oh oh oh oh oh oh oh
Stupid people do
Oh oh oh oh oh oh oh oh
Yeah yeah yeah

I don't need your sympathy

So get used to never seeing me
Dork
Don't cry baby
It's no big deal

How could I have been the fool
To put my trust in you
And how did I get here
Drowning in your tears
When you were nowhere near
I can't get mad at you
Over what you put me through
It's what stupid people do

Stupid people do
I don't need your sympathy
So get used to never seeing me
Dork
