[The Suicide File]

If what it boils down to  
is that "you're either for us or against us"  
I guess I've got a tough, tough choice to make  
cause hollow patriotic actions and reenactments don't  
move me  
and mostly this 21st century brand of propaganda and  
rhetoric  
co-produced by disney and sanitized by cgi just makes  
me sick  
and when I peer through the red, through the white,  
and through the blue - I can see people like you  
  
using tragedy to advance your own narrow moral  
crusade
