kill these words - bury what's inside - it's all i
ask - kick - down the dirt blind my eyes let me gag
in breathless beauty - three ton emotion - splitting
our sickened hearts - what is strength?
- i wish i hadn't seen - i wish i hadn't heard kick
down the dirt can beauty deduct a scar so deep?
- can't stop depression from killing me - bury it all
- air so cold air so thin - i can't breathe - i can't
live - break me free in the name of silence - bury me -
