The drink is gonna kill us
And the houses we go home
We're waiting for the angels
To save us from ourselves
We're boarding up the windows
And then locking all the doors
There ain't no family
And there ain't no community
We gave up on everyone
Everyone gave up on us
There ain't no family
And there ain't no community
chorus:
We are the hopeless mistakes

We stand side by side
Once more the brokenhearted
Side by side

We are the hopeless mistakes
We stand side by side
Once more the brokenhearted
Side by side
