I ring your bell but you're gone
I say hello but all I get is goodbye
Yeah you ain't got the time... for me

Baby if you let me in
I'll be the best girlfriend
That you'll ever find
I got something in mind... you'll see

So come on and get it
Ooh... I know you won't regret it
Baby just maybe we should get together now
So come on won't you tell me when
I can be your girlfriend

Now other girls will lead you on
But I just wanna have some fun
So I'm telling you boy "what you see is what you get
with me"
Talkin' 'bout just one kiss can you handle this

Well come on and get it
Ooh... I know you won't regret it
Baby just maybe we should get together now
So come on won't you tell me when
I can be your girlfriend

So come on
Everything is alright
Oh oh...
Don't be shy
Cause you know you could live a little if you try

[Chorus 2x]

No other girls lead you on
I just wanna have some fun
I ring your bell but all I get is goodbye
