I know my heart was cold
But take back all the things I told you
I trade my soul away for just another day
To hold you
But your not coming back
The dirts already past
The skies have turned to black..again..

Its too late to regret
Cause you already left
It's too late to hold on
Because your already gone
I don't know how I will carry on

I feel your body near
I close my eyes and hear you call me
I swear your voice is real
I reach my hand to feel you draw me
When I look around
Your nowhere to be found
You've left without a sound
Again..

It's too late to regret
Cause you already left
It's too late to hold on
Because your already gone
I don't know how I will carry on
I don't know how I will carry on

It's too late to regret
Cause you already left
It's too late to hold on
Because your already gone
I don't know how I will carry on

It's too late to regret
Cause you already left
It's too late to hold on
Cause your already gone
I don't know how I will carry on
I don't know but I will carry on
