We all must be united and  
get ready to fight, against your disrespect and  
hardliner's neglect.

All those straight edge  
fashion's rules that is supposed to be fucking cool.  
Goal is build a family, do not drink and always stay  
drug free. I'm maybe not cool but the hardcore scene,  
it still rules... some lyrics talk against me but loud  
sound makes me crazy.

Like each and every day, I try to find where's the party  
and like each and everynight, my consomation ignite.  
FUCK HARDLINERS... those who think that we're all  
losers. Respect my convictions cause I respect you with  
a lot of comprehension.

I'm not Straight Edge.  
I am Self-Edge.

I must chose by my own. Don't be enemy' cause we  
must create unity. we choose our own motherfuckin'  
path and i'm never gonna change.

DON'T BE ENEMY.  
WE MUST CREATE UNITY
