Suffering... when you see yourself
feel the pain
Everlasting... is your life depraved
cut your veins
From hell we rise
corrupted and defiled
we just deny
Our pain is our power
and our strength is destruction

Toward path of resistance
in an idiot ignorance
Toward path of resistance
In an idiot ignorance of disease

Prayer (Praaayyerrrr) of hatred you'll be my believer
Prayer and togheter we will find an anwser
God of pleasure you'll be my surrender

Prayer of Hatred
Cause I'm the Unbeliever
Prayer of destruction
in this Corrupted creation
World of innocence
People deny... GO!

This world had build religions
Fucked up in this fuckin system
Anarchy, abuse of freedom
In this year 2000
Prayer! we must find peace
Prayer! this is my speech
This world had build religions
Fucked up in this fuckin system
Anarchy, abuse of freedom
In this year 2000
Prayer! We must find peace.
Hatred! this is my speech
