Slave from death  
Rage. Neglect

Persecuted races and treated like a fucking slave  
Innocent, trapped, dead into an injustice mistake  
Mistake of conscience like the goddamned jews  
persecution  
Black oppression, you know what's the cost  
The world is lost!  
We can't be saved in this world depraved  
Abandoned by the christ, we have to pay the price

Why this Slave  
You know what's the cost  
Slave  
You know that we must

That some put aside  
Don't must break  
Don't must break  
Don't must break

Human race feels no compassion  
Annihilation, Freedom Affection

Slave (Slavvvveee) from death!

Persecuted races and treated like a fucking slave  
Innocent, trapped, dead into an injustice mistake  
Mistake of conscience like the goddamned jews  
persecution  
Black oppression, you know what's the cost  
The world is lost!  
We can't be saved in this world depraved  
Abandoned by the christ, we have to pay the price.
