I am fate. I am hate
What's going on in here?
Is this happening for real?
This is the truth
I know it's not good, but yeah
It's happening for real
Like I said
The way out is the way through
So don't be scared
Just take a breath
And hope for two
Like I said the way out
Is the way through
Don't lose your head
I promise we'll get back to life

I can't see no reason why
I am here tonight
I thought my life was better
I can't see no reason why
This is the end of time
It's hard to realize

Take my hand
I will try to escape until the end
Till they say it's time to die
So take my hand
I will try to find a way
Cause I can't stand
On my knees praying their god

I can't see no reason why
I am here tonight
I thought my life was better
I can't see no reason why
This is the end of time
It's hard to realize

Let's get the f*ck out
The way out is the way through

Take my hand
I will try to escape until the end
Till they say it's time to die

I can't see no reason why
I am here tonight
I thought my life was better
I can't see no reason why
This is the end of time
It's hard to realize

I won't regret a thing in life
When everything's over we are fine
I won't regret a thing in life
When everything's over
Everything's over
[x2]
