Hopes Die Last
"Life After Me Life After You"

Oh my dear
I get the way to make the same check mate
Last supper
Like Judas I betray myself

Nails on the wall
Screaming soul forgetting a damned fall
Gross as a dope
Suffocate this pain alone

Watching truth burning in flames
I'm stuck in this game
Crucify these lies
Nothing changes today
I've passed the way
Which heaven will come?

Knock off you're a man don't cry
Knock off you're a man at the least try
Everyone feels like everyone else
Knock off you're a man don't cry
Knock off you're a man at the least try
Everyone feels like everyone else
Just not at the same time

Oh my dear
How many times they made this nightmare real?
They show me how to get off my favourite dreams
Nails on the wall
Screaming soul forgetting a damned fall
Gross as a dope
Suffocate this pain alone
My tears as clock hands of a pendulum swings time
Movie that was mine now is at the last scene

Knock off you're a man don't cry
Knock off you're a man at the least try
Everyone feels like everyone else
Knock off you're a man don't cry
Knock off you're a man at the least try
Everyone feels like everyone else

Just not at the same time

(So I just want to know)

I want to know the reason why
Stopping time again for the last goodbye
I've tried to save myself in the best way I can
You know me, I never ever ever gave up

Knock off you're a man don't cry
Knock off you're a man at the least try
Everyone feels like everyone else
Knock off you're a man don't cry
Knock off you're a man at the least try
Everyone feels like everyone else

Knock off you're a man don't cry
Knock off you're a man at the least try
Everyone feels like everyone else
Knock off you're a man don't cry
Knock off you're a man at the least try
Everyone feels like everyone else

I want to know the reason why
Stopping time again for the last goodbye
