"Decoys Like Curves"

Visit "[Decoys Like Curves](#)" on MotoLyrics.com

We drove these streets
heads to shoulders, heads to shoulders
Existing to tell the tales of letting go
And now were strangled to tears on the fallback
Existing to tell the tales of letting go
And now were strangled to tears on the fallback

That the reason found decoys, this is holding me back
As if to say what you thought you heard
That the reason found decoys, this is holding me back
As if to say what you thought you heard

Its all in our heads, the faint whispers on the fallback
farewell
I wish i did, I dont want to feel this pull(This Pull)
As the city becomes home without you

I wish i did, I dont want to feel this pull
As the city becomes...

That the reason found decoys, this is holding me back
That the reason found decoys, this is holding me back
That the reason found decoys, this is holding me back
That the reason found decoys, this is holding me back
That the reason found decoys, this is holding me back
That the reason found decoys, this is holding me back
