I'm gonna wash that woman right out of my hair
I'm gonna wash that woman right out of my hair
No matter where I go
No matter where I stay
She just tag along tag along tag along after me
She just tag along tag along tag along after me

I'm gonna scrub that woman right out of my hair
I'm gonna scrub that woman right out of my hair
She has done me wrong
I won't hear her plea
I'm gonna scrub her scrub her scrub her out of my hair
I'm gonna scrub her scrub her scrub her out of my hair

No matter where I go
No matter where I stay
She just tag along tag along tag along after me
